

I really want to be School Councillor this year! If anything is wrong, I hope you all know that you can always come and talk to me, and I will always try to make things better. I would love to be a part of School Council because I would really like to make a difference in school. If you elect me, I will make sure that everybody is friendly with everybody else in class. I would also like to include ipad and privilege activities in Golden Time to reward good behaviour. I will make sure that all of your thoughts and ideas are represented, and will make sure that Year 5 is the best year ever!

Ella-May, Foxes

I don't want to stand here and make you lots of promises that I might not be able to keep. Instead, I'm going to promise you the one thing that I can guarantee - that I will always try my best to represent you, help you and make school better for everyone. I am very easy to talk to and care about everyone in class. If you elect me, I would like to try to get us more play equipment, more school shows and cycling lessons.

Lucas, Foxes
